Forecast for Tuesday 08 Oct 2024

Weather: Heavy rain pushing northwards through the overnight period, easing off by morning. Dry for a time before scattered showers start to feed up from the south around mid-morning. A mix of bright or sunny spells and scattered showers through the rest of the day.

Chance of cloud-free hill tops above 800m: 70%, briefly reducing to 20% in association with the heavy rain

Low Cloud and visibility: Few or scattered cloud base 500-700m in association with showers but broken for a time on the overnight rain band. Visibility good in dry spells, reducing moderate in rain or showers, poor in hill fog.
